

---

## NAMED STORM WINDSTORM DEDUCTIBLE

(Entries required to complete the Schedule will  
be shown below or on the Declarations.)

### Schedule

Named Storm Windstorm Deductible:     \$

---

### DEFINITIONS

---

The following definition is added:

"Named Storm" means a storm system that has been declared and named by the National Weather Service. The duration of the "named storm" includes the time period, in Virginia:

- a. beginning at the time a storm is designated a "named storm";
- b. continuing for the time period during which the "named storm" conditions exist anywhere in Virginia; and
- c. ending 72 hours following the termination of the last "named storm" watch or warning issued for any part of Virginia by the National Weather Service.

---

### HOW MUCH WE PAY FOR LOSS OR CLAIM

---

The following is added to the Deductible provision:

**Named Storm Windstorm Deductible** -- This applies to Principal Property Coverages A, B, and C and all Incidental Property Coverages except Emergency Removal; Fire Department Service Charge; and Grave Markers.

The "named storm" windstorm deductible is the only deductible that applies to loss or damage caused by a "named storm". If a windstorm is not declared to be a "named storm" and there is loss or damage to covered property, the applicable deductible is the deductible that applies to loss due to windstorm.

"We" pay only that part of the loss caused directly or indirectly by windstorm that is more than the "named storm" windstorm deductible amount shown in the Schedule above.

The deductible applies per occurrence. If this policy covers more than one residence, the deductible applies separately to each residence.

The deductible applies regardless of other causes or events that contribute to or aggravate the loss, whether such causes or events occur before, at the same time as, or after the loss caused by a "named storm".

All other "terms" of the policy apply.

PUBLIC ADVISORY NUMBER 34 FOR REMNANTS OF IDA

NWS HYDROMETEOROLOGICAL PREDICTION CENTER CAMP SPRINGS MD AL112009

400 AM EST THU NOV 10 2009

...HEAVY RAINS SWAMP EASTERN NORTH CAROLINA AND RAIN EXTENDS  
NORTHWARD FROM VIRGINIA TO NEW JERSEY...

FLOOD AND FLASH FLOOD WATCHES...WARNINGS...AND ADVISORIES REMAIN  
IN EFFECT ACROSS PORTIONS OF NORTH CAROLINA TO DELAWARE. COASTAL  
FLOOD WATCHES AND WARNINGS ARE IN EFFECT FROM EASTERN NORTH  
CAROLINA NORTHWARD TO LONG ISLAND. GALE...HIGH WIND AND STORM  
WATCHES AND WARNINGS ARE IN EFFECT FROM EASTERN NORTH CAROLINA  
NORTHWARD TO NEW JERSEY.

FOR INFORMATION SPECIFIC TO YOUR AREA...INCLUDING POSSIBLE WATCHES  
AND WARNINGS...PLEASE MONITOR PRODUCTS ISSUED BY YOUR LOCAL  
NATIONAL WEATHER SERVICE OFFICE AT WWW.WEATHER.GOV.

AT 400 AM EST...0900 UTC...THE CENTER OF REMNANTS OF IDA WAS  
LOCATED NEAR LATITUDE 34.0 NORTH...AND LONGITUDE 77.0 WEST...OR 50  
MILES...80 KM...EAST-SOUTHEAST OF WILMINGTON NORTH CAROLINA.

THIS LOW WILL MEANDER OFF THE NORTH CAROLINA COAST TODAY...THEN  
TURN EAST ON FRIDAY AND HEAD INTO THE ATLANTIC. THE COMBINATION OF  
THE LARGE SURFACE LOW SOUTH OF AN EXPANSIVE HIGH PRESSURE SYSTEM  
EXTENDING EASTWARD INTO THE NORTH ATLANTIC...WILL CREATE A LONG  
FETCH OF STRONG EASTERLY AND NORTHEASTERLY WINDS FROM THE VIRGINIA  
COAST NORTHWARD INTO SOUTHERN NEW ENGLAND. COASTAL FLOODING IS A  
SIGNIFICANT THREAT FOR THIS STORM.

MAXIMUM SUSTAINED WINDS ARE NEAR 50 MPH...80 KM/HR...WITH GUSTS TO  
65 MPH...105 KM/HR.. THE MINIMUM CENTRAL PRESSURE IS 996  
MB...29.42 INCHES.
